

# STADIUM LED 1500™

**SPORTSBEAMS**  
LIGHTING UP THE SPORTS WORLD

## REDUCED GLARE

Athletes can't keep their eyes on the ball with glare from other lights. Our single glass optic lights fields evenly with smooth, clear light.

## 200,000 LUMENS

The SportsBeams LED 1500 is the single brightest luminary currently in production.

## REPLACE 2 FOR 1

Our 1500W Stadium LED can replace at least two 1500W standard HID's. Plus, one of our lights weighs 1/3 less than two HID's.

## BROADCAST QUALITY

Our founders are experts in broadcast lighting (just ask Emmy®). They've put their years of expertise into our stadium lights so every uniform looks as good on TV as it does live.

## ACTIVE COOLING SYSTEM

Our patented active cool system reduces our weight fixture by over 40%, maintains constant LED & board temperature, and allows for any mounting angle in more extreme environments.

## ADVANCED INTELLIGENCE

Each Sportsbeams 1500 is equipped with serious intelligence. It tracks lighting hours, fan speed, heat, output and more. Armed with its own MAC address, each light can be controlled individually or together.

## KEY FEATURES:

- 1500W LED illumination
- 200,000 lumens/180,000 delivered
- Ethernet connectivity for wireless or wired DMX control
- Glare-reducing, patented single glass optic for even field lighting
- High 90+ CRI color fidelity option
- Instant re-strike and dimming down to 1 watt.
- IP-66 weather-tight housing & system
- Patented active cooling provides multiple levels of protection
- 75,000+ hour rated LEDs

## DECADES OF BROADCAST EXPERIENCE

Our founders' extensive technical achievements of Sportbeams Founders include Emmy® Awards for LED lighting technology "so innovative in nature that they materially have affected the ...recording of television."

After leading the LED revolution for television and motion picture lighting for over a decade, including lighting major sporting events, television and sports broadcast studios, they bring their technological wizardry to the Sportsbeams Stadium LED 1500™.

## PORTS

## DRIVING RANGE

## INDUSTRIAL

## SPORTS STADIUMS

Our first installation was in Raymond James Stadium

## AIRPORTS

## SKI RESORTS

## OIL RIGS

## MULTIPLE APPLICATIONS

Anywhere the highest quality of light is needed, the best solution will always be SportsBeams.

### 1500 STADIUM LED GENERAL SPECIFICATIONS

LUMEN OUTPUT	200,000
TOTAL INPUT POWER	1,650 Watts
LED POWER	1,500 Watts
INPUT VOLTAGE	100 to 480VAC
POWER FACTOR	>.95
AMBIENT TEMPERATURE	-40 - +50° C
THD	<15%
CRI	70 to 90
COLOR TEMPERATURE	4500° K - 5700° K
L70	75,000 Hours
INTRUSION	IP66
BEAM ANGLE	13.2° to 42.7°
FIELD ANGLE	28° TO 104.7°

### THE SAFE & ENVIRONMENTALLY FRIENDLY CHOICE

Unlike HIDs, our LED lights don't pose any explosion risk

Our lights don't contain any toxic mercury or other harmful materials

LEDs emit zero ultraviolet radiation, which can cause eye and skin damage

We reduce spill light with our tightly focused, single-lens beam and glare reducing visor, limiting light pollution

Our high-quality light fixtures are covered covered by one or more of the following certifications:
